

Pumpkin Templates

Toon Boom Animation provides several templates designed to help the user enhance the look of a scene. The Pumpkin Templates Package contains designs which are compatible with Toon Boom Storyboard and Toon Boom Storyboard Pro.

What the Pumpkin Templates Package Contains

The Pumpkin Templates Package contains the following pumpkin designs:

How to Install the Pumpkin Templates

Once you have downloaded the Pumpkin Templates Package, you are ready to install them.

Make sure to close Toon Boom Storyboard or Toon Boom Storyboard Pro before you start the installation process.

To install the Pumpkin Templates package:

1. Double-click on the Pumpkin Templates Package (*.exe).
2. Follow the Install window instructions.
3. After the installation is complete, you will find the templates inside the Template Library View, **Templates > Props > Pumpkins**.

How to Import the Templates

This document explains how to use the templates.

Opening a Scene

Before you can use the pumpkin templates, you must first create and open a Toon Boom Storyboard or Toon Boom Storyboard Pro scene.

Importing the Pumpkin Template

Once your scene is opened, you can import any of the pumpkin templates to your Drawing view.

To select and import the template:

1. In the Library View's folder list, select **Templates > Props > Pumpkins**.
2. In the Library's bottom window, right-click (Windows) or [Ctrl]+click (Mac OS X) and select **View > Thumbnails**.
3. Select any of the pumpkin templates you want to use and drag it to your Drawing or Timeline view.
